Dear Mr. Echeverria:

The Department of Toxic Substances Control (DTSC) has completed the technical review of the RCRA Hazardous Waste Facility Permit Renewal Application, revised March 2018 (Approved Application), for the Dow Chemical Company (Dow), located at 901 Loveridge Road, Pittsburg, California.

DTSC considers the Permit Application listed above to be technically complete. Based on the information provided in the Approved Application, DTSC has written a draft Hazardous Waste Facility Permit. DTSC has also written a draft Notice of Exemption (NOE) to comply with the California Environmental Quality Act (CEQA). These documents will be made available for public review and comment during an upcoming public comment period. If DTSC determines that additional information is needed to clarify, modify or supplement previously submitted material, DTSC reserves the right to require this information from Dow.

If you have any questions about these comments, please contact me at (916) 255-3615 or Lung-Yin.Tai@dtsc.ca.gov.

Sincerely,

Lung-Yin Tai
